**Matthew Barney : *SECONDARY***  
**Booth C20 Art Basel Miami Beach**

a solo presentation in collaboration with  
Sadie Coles HQ, Gladstone Gallery,  
Regen Projects, Galerie Max Hetzler

Exclusively for Art Basel Miami 2024, Matthew Barney presents a series of unique new sculptures that expand his acclaimed recent project *SECONDARY*. Barney's five new *Wall Racks* are presented alongside drawings from the *SECONDARY* project, evoking the athletic training space and the physical limits of the body. Working primarily in ceramic, Barney is able to evoke both the sensation of strength and fragility, while memorialising and pathologizing the traumatic impact that is the driver of *SECONDARY*'s narrative.

In this body of work, Barney employs a series of formal tactics that examine the intersection between repetitive physical movement and the iterative artistic gesture. Exploring athletic equipment and team uniforms as evocations for the figure, the artist's new sculptures examine both failure and resilience within the body. Barney exploits the varying natural qualities of his materials as a metaphor for recovery and collapse. The ceramic plates appear to be caving-in under their own weight, cracking and folding, countering the object's association with durability. Within this state of duress is a collision of materials—from the entangled jerseys to the fusion of different clay tones. The simultaneous vigor and vulnerability of this action amplifies the connection between physical endurance and breakdown that Barney continues to explore in his wider drawing, painting and film practice.
