MARIAN GOODMAN GALLERY

A close-up photograph of a bronze sculpture, focusing on the torso and upper abdomen. The surface is highly detailed, showing the texture of the metal, including small pits, scratches, and variations in color from a warm golden-brown to a darker, almost black patina. The lighting is dramatic, highlighting the curves and contours of the body. The background is a plain, light color, possibly white, which makes the dark, textured sculpture stand out.
